

Happy New Year!!!!

January 5th, 2018

To my faithful family and friends!!!!

Thanks so much for your faithful prayers and financial support over this past year 2017 and now into 2018!!! It is such a blessing to have all of you, in some way, a part of my support team. I could not do it without you!!! I look ahead with anticipation and excitement at all that the Lord has planned for 2018!!

It's been great to be back in Bluffton for Christmas and New Year's these past two weeks, seeing all my family and catching up with church friends. It has been really a rich, filling, relaxing, and re-energizing time.

Feeling ready for the second half of the field service in Cameroon. Surgeries have started back up this week, from a short break through Christmas and New Year's. For these next weeks, we will be doing General surgery, including thyroid surgery and continuing our array of Maxilla facial procedures, treating those with many facial tumors and deformities.

Love in Christ,
Missy

Celebrating
Christmas with
my family this
year has been so
special!!

Thankful we
could all be
together!!

Prayer Points from Cameroon:

- to continue to find the right balance of alone with Jesus time, work time, friend/social time, recreational time, and other ministry time.
- Be in prayer for our on-going staffing needs for the OR, as this has been one of the bigger challenges this field service
- For the ongoing need for Women's Health patients....wisdom and discernment to know where to target to find patients and if not women's health, what specialty of patients to do for those surgical weeks
